

SOUND

Sound Is Considered from the Start

Sound is evaluated through design, engineering, and execution.

Sound Level Comparison: Facility vs. Common Sounds

How Data Centers Reduce Noise Impact

- ✓ Liquid cooled servers in a closed loop system
- ✓ Sound barriers
- ✓ Strategic equipment selection and placement
- ✓ Acoustic modeling

Total sound output is in line with a standard office building.

PROUD HERITAGE. SHARED FUTURE.

INTEGRA™

September 2026 | Rev. 1.0

Information current as of September 2026. Project details may be refined as engineering, permitting, utility coordination, environmental review, and final design activities progress. Visit [QuanahDC.com](https://www.QuanahDC.com) for the latest project information.
